He has led the Bills to four Super Bowls. . . Famous for his ability to read a defense, Jim has thrown for over 36,000 yards in his pro career. . . The Pittsburgh native has been selected for the Pro Bowl four times. . .

## DAVID KLINGLER/BENGALS

David is another first round pick (sixth overall) who has impressed quickly since the beginning of his pro career in Cincinnati. . . A strong arm makes him an able heir to former starting QB and fellow NFL Quarterback Club member Boomer Esiason. . .

## BERNIE KOSAR/DOLPHINS

A graduate of the University of Miami football program, Bernie is an excellent reader of defenses who holds records for lowest percentage of passes intercepted (2.52) and most consecutive passes without an interception—308! . . . Drafted by the Cleveland Browns in 1985, Bernie was released and picked up by Dallas in 1993—in time to play in Super Bowl XXVIII. . . Signed by Miami as a free agent in 1994. . . Kosar has played in four league championship games, three in the AFC and one in the NFC. . .

He is second only to Fran Tarkenton in career passing yards with 40,720. . . The Dolphin quarterback is famous for his fourth-quarter come backs; opposing teams have learned the hard way that no lead is safe from Dan Marino. . . A quick release and pin point accuracy are his trademarks. . .

Played in the Pro Bowl in 1991, a year he was tied for the league lead in touchdown passes before injuries ended his season. . . A California native, Chris was born in Pomona on August 9, 1965. . .

# THE QUARTERBACK CHALLENGE™

The Quarterback Challenge™ will test your skills in four demanding events. It's great for competing against other quarterbacks, or for use as a training tool in the preseason before getting the team on the field for full-scale game play! You can also build up your own Custom Quarterback by competing repeatedly in the challenge events—and then import him into NFL™ Play in preseason mode!

## PLAYER MODE

When you choose Quarterback Challenge from the options screen, you will see a screen with five controllers on it, each with a different color. Note the player order box at the bottom of the screen. All players (up to five!) who wish to compete should press their START BUTTON. When the first START BUTTON is pressed on one controller, all other players will have 10 seconds (which will be counted down on screen) to press their START BUTTON and enter the challenge. Once all participating player controllers have been entered, the player order box will randomize the order in which players will select Quarterbacks and compete in the first event.

## SELECTING OUR QUARTERBACK

Each player will then be asked to select their quarterback from the 19 NFL™ superstars available in NFL™ QUARTERBACK CLUB™.

First, press UP or DOWN on the CONTROL PAD to scroll through the list of names and highlight the specific quarterback you want. When your choice is highlighted, press the B BUTTON to see the player's statistics and attributes. To view another quarterback's stats and attributes before making a final selection, press UP or DOWN on the CONTROL PAD to highlight a different quarterback, then press the B BUTTON to see the new quarterback's stats. To lock in your choice, press the B BUTTON a second time.

## BUILD A CUSTOM QB

NFL™ Quarterback Club™ offers a unique option: the chance to build your own franchise player. Before beginning the Quarterback Challenge, you may choose to create your own custom quarterback. Your custom Quarterback will initially start out with nominal attribute ratings in each of the categories used in the NFL™ Quarterback Club™. To make him a viable competitor, you must increase your custom player's abilities by successfully competing in the Quarterback Challenge events. Each time you do so, you will raise your custom quarterback's ability ratings. To select the Custom Quarterback feature, first highlight Select QB, then press RIGHT on the CONTROL PAD to highlight the Custom category, then press the B BUTTON. You may choose uniform color, uniform number, player skin tone, and the player's throwing arm (left or right) by first pressing UP or DOWN on the CONTROL

## CHALLENGE EVENT RULES

### EVENT 1: ACCURACY

The object of this event is to throw the football and hit the moving targets as accurately as possible. The closer the ball is to the target bullseye, the higher the point totals that will be awarded. You will have four chances to test your accuracy skills. Yellow frame cursors indicate the distance at which the ball will be thrown at bullseye level within the frame. Press the B BUTTON the distance you think will draw big points for a hit.

### EVENT 2: SPEED & MOBILITY

The object of this event is to test your agility and speed by completing an obstacle course in the briefest time possible. You'll have to dodge other players, and at the end of the course you'll have to throw a football at a fixed target. Press the A BUTTON to jump over an obstacle and the Y BUTTON to duck under an obstacle. The faster you make your way through the course—and the closer to the bullseye you throw the ball—the higher your score will be on this event. You'll have two chances to make your way through the course as quickly as possible. Knocking a bar or a cone will result in a time penalty, as will missing the target. Hitting the inner ring or bullseye will subtract time from your run, giving you a higher score.

Press the CONTROL PAD to move your way around the field. Note the worn path in the turf. This is the general course you want to follow as you make your way past the obstacles. After you hurdle the crossbar, you will step in to the throw zone. Press the B BUTTON to start the red targeting arrows in motion. Press the CONTROL PAD to adjust the arrows for aiming your throw. When the arrows are at the desired distance, press the B BUTTON to throw the ball.

### EVENT 3: DISTANCE

The object of this event is to throw the football as far as possible. Each quarterback will have two throws; the best one will count toward the player's final point total.

Note the yellow frame cursors on the surface of the field. Press the A and B BUTTON alternately to move the brackets as far down field as possible, but move quickly: *You're under a time constraint here!*

### EVENT 4: READ & RECOGNITION

The object of this event is to test your ability to recognize "live" targets amidst a group of moving targets, and to hit those targets as accurately as possible. You'll have four chances to test your read and recognition abilities.

Six targets will be on the field, but only three of those will be "live" targets; those will be the targets indicated by orange flags. Note the yellow frame cursors that move along the surface of the field. These indicate where the ball will be thrown. You can adjust your aim by adjusting the position of these brackets by pressing the LEFT and RIGHT on the CONTROL PAD. When you feel your aim

is correct, press the B BUTTON to throw the ball. Be careful, though: if you hit a dead target, your throw will be considered an interception! If you hit the target rings—or the bullseye—those points will be deducted from your event score!

## SAVING YOUR CUSTOM QB

If you have used a Custom QB in the Quarterback Challenge™, you will be given the option of saving him or continuing. You can save up to five quarterbacks. If your quarterback did poorly and you don't wish to save his performance, select Continue with the CONTROL PAD, then press the START BUTTON to return to the game mode screen. If you are satisfied with your quarterback's performance, use the CONTROL PAD to highlight the Save QB option, then press the START BUTTON. You will then use the CONTROL PAD to select which box you wish to save your Custom QB to. NOTE: Saving over an existing Custom QB will delete that quarterback and replace him with the current one. Press the START BUTTON to save the current Custom QB, then highlight Continue and press the START BUTTON to return to the game mode screen.

# NFL™ PLAY

Are you ready for the most realistic NFL™ game action ever? Then you've come to the right place! Because the NFL™ Play option of NFL™ QUARTERBACK CLUB™ gives you more plays, more strategies, and more helmet-crunching action than you've ever seen before!

## SIX GAME MODES

NFL™ Play provides you with six modes of play:

- 1. PRESEASON:** Use this mode to compete in Preseason competition. Preseason mode allows you to import Custom Quarterbacks or substitute NFL™ Quarterback Club™ member quarterbacks.
- 2. NEW SEASON:** Use this mode to begin a new season of action, from opening day to the Super Bowl itself!
- 3. RESUME SEASON:** Use this mode to pick up seasonal play where you left off last time.
- 4. ENTER PLAYOFFS:** Use this mode to set up a playoff bracket on the way to the Super Bowl.
- 5. RESUME PLAYOFFS:** Use this mode to pick up playoff action where you left off last time.
- 6. PRO BOWL:** Use this mode to set up an AFC vs. NFC Pro Bowl game!

No matter which mode of play you choose, you can compete at three levels of difficulty: ROOKIE, PRO, or ALL-PRO.

# CHOOSING YOUR TEAMS

Once you've chosen your mode of play, it's time to choose the team you want. This screen allows you to choose which of the 28 NFL™ teams you want to be on.

Press the UP or DOWN on the CONTROL PAD to scroll through all 28 NFL™ teams. Note that attribute levels are provided in seven important categories: passing, running, blocking, tackling, blitzing, coverage, and special teams. Once you've scrolled through to the team you want, press the START BUTTON.

**NOTE:** When you choose New Season or Enter Playoffs, only the team on the left of the screen may be selected. The team on the right will automatically modify to display which team your selected team will face in the upcoming game.

## CUSTOMIZING WEATHER, PLAYING SURFACE, AND OTHER GAME OPTIONS

Once the teams are chosen, there are several other decisions about the game that need to be made. NFL™ QUARTERBACK CLUB™ provides you with the following choices:

19

- Choose a home or away game

- Choose from six weather options: fair, rain, snow, hot, cold, or auto—which allows the computer to randomly choose for you.
- Choose between grass and artificial turf playing surfaces.
- Choose one of five quarter lengths: 1, 2, 5, 10, or 15 minutes per quarter.

# GAME TIME

## PLAYER SELECT

After selecting your teams and setting your custom options, it's time to select which team to play on. Five players appear in a semi-circle. A number appears above every player there is a controller plugged in for. Each controller has a color assigned to it (this color assignment is in effect for all modes of play). An arrow bearing the color assigned to that controller. An arrow bearing the color assigned to that controller appears below the player currently selecting. Up to five players can elect to play as teammates or to be on opposing teams. Use the CONTROL PAD to move your player under the name of the team you wish to join. The game will begin when any player pushes the START BUTTON on his or her controller, so in a multi-player game, make sure everyone has chosen before starting. If any player in a multi-player game does not make a selection, the computer will control that player. If you wish to change your selection, you may do so after the coin toss by pressing the START BUTTON to bring up the Pause Options screen and selecting Restart Game. If you wish to watch a computer controlled game, simply press the START BUTTON without moving a player to either team.

20

In a multi-player game, play calling priority is determined by controller number. The player whose controller has the lowest number is the Offensive Team Captain, and therefore chooses the offensive plays. The player whose controller has the next lowest number (the Defensive Team Captain) calls the defensive plays. For example, if players with controllers 1 and 3 have selected the Cowboys, and players with controllers 2, 4 and 5 have chosen the Bills, the player with controller 1 will call offensive plays for the Cowboys, while the player with controller 3 will call defensive plays for them. The player with controller 2 will call offensive plays for the Bills, while the player with controller 4 will call defensive plays. In this example, the player with controller 5 does not call plays; only players with the two lowest controller numbers on a given team are captains.

## THE COIN TOSS

The coin toss determines who will kick off and who will receive. The visiting team calls the toss in the air. Press the CONTROL PAD to move indicator between Heads or Tails. Results of the toss appear immediately. If you win the toss, you may elect to either kick off or receive by pressing the CONTROL PAD to highlight your choice and the B BUTTON to select it. If you lose the toss, you get to choose which goal you wish to defend by highlighting your choice with the CONTROL PAD, then pressing the B BUTTON to select it. After selecting, each team will choose the respective kick or return play they wish to run. It's kick off time!

## THE PAUSE OPTIONS SCREEN

At any time during game play, you may press the START BUTTON to halt game play and activate the Pause Options screen. This screen allows you a wide variety of statistical and game play options:

Press the UP and DOWN CONTROL PAD to highlight one of the eight pause options available. To activate that option, press the B BUTTON. To exit the Pause Options screen after utilizing one or more of the options, press the START BUTTON.

Here's a detailed explanation of what each option does:

**SUBSTITUTING QUARTERBACKS:** This allows you to bring the second string quarterback off the bench and into the game, or to import a custom quarterback in Preseason mode. Press the B BUTTON to swap quarterbacks.

**CALL A TIME OUT:** This enables you to call a time out and stop the game clock. The time out will be charged to the team that called up the Pause Options screen.

**VIEW GAME STATISTICS:** This allows you to view a comprehensive compilation of statistics for the game up to that point. Press the UP and DOWN CONTROL PAD to scroll through the statistical listing. Press the B BUTTON to return to the Pause Options screen.

**SET AUDIBLES:** This allows you to access your playbook and assign specific plays to the A, B, and Y BUTTONS for audible use. Press the LEFT and RIGHT CONTROL PAD to scroll through the plays, then press the A, B, or Y BUTTONS when the specific play you want assigned to that button is in the box labeled with that button's letter. Press the SELECT BUTTON to move the highlight between Offensive and Defensive plays. Press the START BUTTON to return to the Pause Options screen.

**DRIVE SUMMARY:** This provides you with details of the current drive, including how the team with the ball gained possession. Press the CONTROL PAD to scan the field where the action took place. The screen will also provide you with a statistical breakdown of that drive. Press the B BUTTON to return to the Pause Options screen.

**SMOOTH CAM REPLAY:** This will allow you to review and analyze the previous play. Press the CONTROL PAD to move the camera's point of view to the ball, a specific player, or a particular area of the field. To watch the play in real time, press the A BUTTON. To watch the play in frame-by-frame slow-motion, press the B BUTTON. To rewind the action and review the play again, press

the Y BUTTON. For fast forward, press the X BUTTON. To shift the replay to an opposite-angle point of view, press either the LEFT or RIGHT trigger. Press the START BUTTON to return to the Pause Options screen.

**RESTART GAME:** This allows you to cancel all game play up to this point and return to the Player Select screen to choose which of the two teams you wish to control. The teams and options remain as you set them previously. You now begin the game fresh from the opening kickoff. **NOTE:** All statistics for the game up to that point will be eliminated. The computer will ask you if you are sure. Press the LEFT or RIGHT CONTROL PAD to highlight either "yes" or "no," then press the B BUTTON.

**HUDDLE:** This allows the player to set a "no huddle" situation on offense for the purpose of speedy game play or hurry-up and two-minute drill situations. If the no huddle option is set, no play-book options will appear, and players will call plays from their selected or default audibles. When you choose this option, the computer will ask you if you are sure. Press the LEFT or RIGHT CONTROL PAD to highlight either "yes" or "no," then press the B BUTTON. **NOTE:** Once a No Huddle offense is set, it will remain in effect until the clock stops or you turn it off by choosing a huddle setting.

## PLAY PLAQUES

Each play in NFL™ Quarterback Club™ is diagrammed on a play plaque. To help you understand the diagrams, a brief legend appears below.

### ON OFFENSIVE PLAQUES:

 A **Circle** denotes a player. The circle represents where the player is positioned at the start of a play.

 A **Line** denotes the direction/ position the player should move in/ to.

 A **Dotted Line** from the Quarterback denotes a Pitch out or Hand off.

 A **Line crossed with a T junction** denotes both the position and direction of a Block

 A **Line with an Arrow** indicates that the player should continue in the direction of the arrow for the maximum distance the play allows.

### ON DEFENSIVE PLAQUES:

 A **Circle** denotes a Lineman at the line of scrimmage. This player will remain near the scrimmage line.

 A **Square** denotes a Linebacker. This player defends behind the linemen.

 An **X** denotes a defensive back. This player defends against the pass, and is in the backfield.

 A **Line** indicates that a player should go to this area and Read (assess the situation, then act).

 A **Line with an Arrow** denotes a player should continue in that direction/ penetrate the offensive backfield.

 A **Darkened Circle** at the end of a line from a Square or an X denotes the player is going to an Anchored Zone. This means the back will defend this zone, and not leave it to pursue an offensive player unless it's clear that surrounding coverage has failed and there is no one else able to pursue him.

 A **Clear Circle** at the end of a line from a Square or and X denotes an Unanchored Zone. A defending back in an Unanchored Zone must pick up and stay with the first uncovered offensive player in this zone.

## YARDAGE SITUATIONS

Offensive and defensive plays are divided into Short, Medium and Long yardage situations, with many plays in each formation. For example, in a Short yardage situation, in a Pro Set formation, the offense can choose from a half dozen different plays. Below is a brief outline of some of the characteristics of each yardage situation.

### SHORT

Short yardage situations include anything from 0-15 yards.

#### Offense

**PASSING** — Patterns tend to emphasize evasion.

**RUNNING** — Short yardage situations call for power plays, and tend to favor the bigger men, Full backs and Halfbacks especially.

#### Defense

**PASSING** — In defending against the pass in short yardage situations, linebackers and defensive backs must establish coverage close to the line while keeping the backfield covered—a tough assignment.

**RUNNING** — Defense is similar to that for short passing situations, but with greater emphasis on covering the line.

### MEDIUM

Medium yardage situations include anything from 16-30 yards.

#### Offense

**PASSING** — Passing patterns in medium situations are likely to have the receiver breaking at a point double that of Short yardage plays. Speed becomes more important.

**RUNNING** — Misdirection plays a greater part in the Medium yardage running game, with increasing use of trap and pull blocks.

#### Defense

**PASSING** — In many Medium yardage situations, pass coverage means intense line penetration coupled with plenty of depth coverage from the defensive backs, who must still be wary of the short play.

**RUNNING** — Defending against the run in a medium yardage situation requires the defense to be especially watchful of the offensive line and backfield as they try to draw the defense into misreading the play and committing costly blunders.

### LONG

Long yardage situations include anything over 30 yards.

#### Offense

**PASSING** — Long yardage passing plays are *not* desperation plays, but soundly structured play patterns that often result in dramatic gains.

**RUNNING** — The Draw and the Delay are favorites for the long running game, as fooling the defense into expecting a pass becomes essential to the success of a long run play.

#### Defense

**PASSING** — Getting burned on a long pass play is a defensive back's nightmare. Defending the secondary is the name of the game here. It's important to get an accurate read before committing.

**RUNNING** — Another situation where the offense will be faking the pass in order to gain big on the ground. Defenders must be vigilant at the line.

## OFFENSIVE PLAYBOOK

The Offensive Playbook in NFL™ Quarterback Club™ is extensive. The plays use four different offensive formations, which apply differently in Short, Medium and Long yardage situations. The formations are as follows:

### PRO-SET

#### PRO SET

The Pro Set is perhaps the most popular offensive lineup in the NFL®. In this setting, a fullback and a halfback line up beside each other behind the quarterback.

### POWER I

#### I FORMATION

In the I Formation, two backs line up directly behind the quarterback. This formation is popular for running sweeps and dives.

### SHOTGUN

#### SHOTGUN

The shotgun is a passing formation in which the quarterback is set back about five yards from the center, giving him plenty of scrambling room and time to find open receivers.

### RUN + SHOOT

#### RUN & SHOOT

The Run & Shoot is a formation featuring four fast receivers and a halfback. The speed of the receivers can make for quick yardage gains if the pass is completed.

## NFL™ QUARTERBACK SIGNATURE PLAYS

Each quarterback featured in NFL™ Quarterback Club™ has a signature play which is typical of his playing style and highlights his particular strengths. Once you've selected a quarterback, look through the playbooks to find his signature play, which is designed to make use of his unique abilities.

## DEFENSIVE PLAYBOOK

The Defensive Playbook in NFL™ Quarterback Club™ features five popular defensive formations, which have multiple play options in either Short, Medium or Long yardage situations.

### 6-2

#### 6-2

The 6-2 defense features six linemen and 2 linebackers. It is a potent defense against the run, but don't rule it out for pass coverage. Check the playbook for plays featuring extra safeties.

### 3-4

#### 3-4

This formation features three down lineman and four linebackers and is very effective against short and medium passes, as well as the run.

### 4-3

#### 4-3

The 4-3 features a standard alignment of two tackles and two ends as down linemen (the four), with three linebackers. Appropriate against runs and short passes.

### NICKEL

#### NICKEL

The Nickel defense gets its name from the addition of an extra defensive back, making for five. This makes for effective pass coverage in a situation where a pass is likely.

### DIME

#### DIME

The Dime has backfire potential in it, as the defense opts to add yet another defensive back. Only used when a pass is a virtual certainty, as it leaves the defense vulnerable to the run.

## PENALTIES

### KICK OUT OF BOUNDS: ILLEGAL PROCEDURE

If a kickoff goes out of bounds without either team touching it, the receiving team may take possession at their own 40 yard line or at the yard line where it went out of bounds, whichever is better for them.

### DELAY OF GAME

5 yard penalty, plus repeat of down. The offense must hike the ball before the 40 second play clock expires.

### OFFSIDES

5 yard penalty. No offensive player may cross the line of scrimmage before the ball is snapped. A defensive player must be on his side of the ball when it is snapped, and may not touch an opposing player prior to the snap.

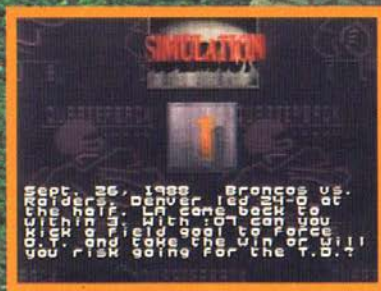

### PASS INTERFERENCE

First down at point of interference. No player may interfere with a receiver before he catches the ball.

## SIMULATION

When you choose Simulation mode you find yourself thrust into the high-pressure turning points of past Super Bowls and other intense game situations! You may be down 28 to 14 with 3:50 left to play, as the Raiders were against the Steelers in September of 1976, or you may find yourself playing in the very first Super Bowl, with Kansas City 18 points behind Green Bay in the 4th quarter. You may even wind up back in 1957 for the Western Conference Championship with the Lions trailing the 49ers 24-7 at the half—a game the Lions went on to win!

As you address the high-pressure simulation situations, you will be able to utilize all the plays and functions of current NFL™ game play.
